

UF Information Technology

Internship Title: Data Center and Logistics Internship

Department: Infrastructure and Communication Technology

Work Location: SSRB – Bryant Space Science Center at 1772 Stadium Road, Gainesville, FL

Brief Description of Internship:

This internship position will aid in infrastructure tasks such as tracing, labeling, and cabling of UF's data center network. This position will also assist in the documentation and testing of the data center infrastructure. The Data Center & Logistics team supports UF's two main data centers and provides logistical assistance with UFIT's inventory lifecycle.

Specific Duties:

- Assist in tracing and labelling of cabling network
- Assist in installing cabling network
- Assist in documentation of cables
- Assist in fiber and copper testing

Hours Per Week: 10 - 15 hours per week

Qualifications Needed:

- Background in Excel/Word
- Strong writing and grammatical skills
- FBI background check required

Learning Objectives:

- Basics of physical network connectivity
- Basics of troubleshooting fiber connectivity
- Able to efficiently utilize spreadsheet and wiki-type documentation
- Develop effective work habits, including time management, punctuality, and personal accountability related to the work and its function in the economy
- Demonstrate openness, inclusiveness, sensitivity, and the ability to interact respectfully with all people and understand individuals' differences
- Identify, write down, and carry out performance objectives (mutually agreed upon by the employer, the UFIT experiential learning supervisor, and the student) related to the practical experience in their internship
